7 Reasons to Drink Our Nano Iodine:

1. **Our nano iodine underwent the following procedures to obtain the State Registration Certificate of the Republic of Kazakhstan:**
   a. Laboratory testing
   b. Preclinical trials
   c. Clinical trials for 7 years on 6,500 patients
   d. Testing under the pharmaceutical registration framework in Kazakhstan (no dietary supplement can pass this)
   e. Testing under the dietary supplement registration framework in Kazakhstan
2. **Our nano iodine is the safest in the world.**
   a. Iodine as a chemical element can be very reactive; to ensure your body absorbs it easily and comfortably, we process it through 42 production cycles.
   b. Our iodine can be consumed at 500 mg per day or even 2 grams per day or more, whereas the same American Iodoral cannot be consumed above 200 mg due to its activity and poor tolerability, unlike ours.
   c. There are no analogues of our product in the Republic of Kazakhstan.
   d. Our product is successfully sold in the USA and, among 30 competitors, it is the safest.
3. **Our nano iodine is the product of a group of scientists:**
   a. Scientific director of the project — a luminary of world science, Toregeldy Sharmanovich Sharmanov (WHO expert, UNICEF expert, professor, Leon Bernard Prize laureate — equivalent to the Nobel Prize, Hero of Labor of the Republic of Kazakhstan, academician of the Academies of Sciences of Russia and Kazakhstan)
   b. Yuri Sinyavsky — author of nutrition systems for ISS cosmonauts, two-time State Prize laureate, creator of our nano iodine formula, professor of biology
   c. Murat Kenesovich Turlubekov — Honorary Academician of the Academy of Nutrition of the Republic of Kazakhstan
4. **Our nano iodine is 100% produced in Kazakhstan using the world's best manufacturing technology.**

---

5. **Our nano iodine is made from iodine derived from Japanese seaweed.**
6. **Our nano iodine has been on the global and Kazakh markets for 24 years with not a single case of poisoning.**
7. **In our practice, our nano iodine has treated many chronic and hereditary diseases, including diabetes, mastopathy, gout, autism, tuberculosis, infertility, hepatitis C, etc.—in fact, about 90% of known diseases.**
