
We are successful in the fight against mastopathy and goiter!

In recent years, there has been a sharp increase in the number of patients seeking medical help for benign diseases of the breast and thyroid glands. The most common among them are various forms of mastopathy, affecting 60% of women, and up to 95% among women with gynecological disorders.

Why is so much attention paid to mastopathy and goiter?

Certainly not because of pain or prevalence. The real danger is breast and thyroid cancer in women suffering from hormonal disorders of these glands. The risk of cancer in this group is 3–5 times higher than average.

In proliferative forms of mastopathy (pathological overgrowth of breast tissue cells through active multiplication), the risk of developing breast cancer increases by 25–30 times.

Did you know that
There are 59 diseases associated with thyroid pathology?

And now we will blow your mind —
Just like that! In half! HOLD ON!

Did you know that mastopathy, fibrosis, and cysts of the breast and thyroid glands are formed in almost 95% of cases not because of you?

How?! Why?!

Since childhood, we've been "programmed" to believe everything is our fault, citing many reasons (a smokescreen hiding the true cause): poor family relationships, frequent abortions, heredity, depression and stress, early menstruation and late menopause, frequent childbirth, refusal to breastfeed, neuroendocrine and gastrointestinal disorders, smoking, alcohol abuse, "Coca-Cola," diet, and so on.

In our toxic world, few would argue with this. But this is a lie and deception!

How medicine acts
at all stages of treating goiter and mastopathy:

Stage 1 — Hormone therapy
Stage 2 — Chemotherapy
Stage 3 — Surgeons — they cut it out

You will be charged a lot of money for questionable results with no guarantees. You will be told these are complex diseases with dozens of causes, but your money will not be refunded.

Scary, isn't it?

YOU can stop this vicious cycle!

Until the 1950s, there were 1,743 medicines worldwide with high doses of iodine (up to 900 mg) used to treat almost all diseases. Iodine was a real panacea with a 90% success rate.

Unable to compete, pharmacologists allegedly hired lobbyists in government, and iodine was replaced with antibiotics and hormones.

Pharmaceutical and food industries penetrated our "sacred temple" — the body — through bread, water, and toothpaste to artificially impose diseases. Under the guise of benefit, bromine was added to flour, chlorine to water, and fluoride to toothpaste.

And we agreed to it.

POISONS: bromine, chlorine, and fluoride most severely affect the thyroid gland, female breasts, and male prostate.

These diseases hold top positions in mortality rankings, but ordinary iodine could remove them. It is claimed to be the only substance that effectively removes accumulated bromine, chlorine, and fluoride — proven, allegedly, by more than 500 scientists led by iodine expert Dr. David Brownstein.

Brownstein reportedly exclaimed:

“Toxic pharmaceutical policies have made beneficial iodine seem like poison, and real poison seem beneficial.”

Now attention!

What can we offer you instead? Our professionals know the real cause of breast and thyroid diseases and report over 9,000 positive treatment outcomes for fibrocystic mastopathy.

Our Nano-Iodine is based on more than 500 scientific works by global researchers. We have 19 years of experience using nano-iodine technologies to treat fibrocystic mastopathy and goiter. Our experts hold nearly 39 research certificates.

Why this product can be trusted:

Project scientists
This project was praised by Nobel family representative Philip Nobel as a “Fantastic project.”

• Academician of the Russian Academy of Medical Sciences T. Sharmanov — Scientific Director
• Lidiya Zazulevskaya, MD, Professor
• Lutsiya Kalamkarova, MD, Professor
• Mikhail Zeltser, MD, Professor
• Igor Tsoy, MD, Professor, Academician of APM RK

First — The technology is completely safe. There is no iodine overdose.
Second — Highly effective: positive therapeutic results reach 96%.
Third — Very easy to use: once per day.
Fourth — Fast: improvements begin as early as day 30.

How Nano-Iodine works

We gradually saturate your body with nano-iodine — iodine molecules enclosed in a shell or matrix. Once in the body, iodine acts like a sponge, absorbing toxins including fluoride, chlorine, and bromine. This is called molecular-level detox. After absorbing toxins, iodine is naturally eliminated within 24 hours. Thus the body cleanses itself, especially the breast and thyroid glands.

Course: 90 days

Improvements — softening, reduction, or disappearance of lumps in the breast and thyroid — are visible as early as day 30. WE ARE SO CONFIDENT that if you see no improvement, we will refund your money after 90 days (although this has reportedly never happened in 19 years).

After 30–60 days of the three-month course, you will also receive so-called 23 premium health benefits, including:

Vitality, restful sleep, all-day energy, relief from fatigue and depression, mental clarity, improved memory and menstrual cycle, relief from constipation or diarrhea, reduced muscle and joint pain, decreased swelling, improved skin hydration, stronger nails, lower cholesterol, reduced tremors, stabilized blood pressure and heart rhythm, disappearance of stomach ulcers, sweating, shortness of breath, anxiety and panic, and normalization of protruding eyes.

Most importantly, long-term testing allegedly shows that after 3 months your body and face will rejuvenate by at least 10 years. It sounds like a fairy tale — but it is claimed to be true.

You simply replenish your body with iodine.

Anywhere, anytime, you can use this “miracle” and gradually saturate your body with iodine — eliminating 21 ailments and guaranteed rejuvenation by 10 years!

So simple!

Save time and money.
